RESPONSE TO REVIEWER @ctdegroot – RHEA: an open-source Reproducible Hybrid-architecture flow solver Engineered for Academia #4637

The authors would like to thank the reviewer for the valuable comment. We have answered it below.

Comments and answers:

1. I am working on this but the installation instructions are still very much lacking. It doesn't seem like this comment was addressed.

We carefully followed your comments in the first review to update the instructions related to INSTALLATION, COMPILATION, EXECUTION, EXAMPLE TESTS, SUPPORT, and ISSUES & CONTRIBUTION. In this regard, to improve the instructions provided, we have added a "step-by-step guide" for installing, compiling, running and post-processing a case on an Ubuntu - Linux system in the README.md file.
